Johnson W H, general store.

MOUNDSVILLE.

Population, 7,000. This city, the county seat of Marshall county, is situated in one of the most healthful and picturesque sections of the state. Located on the Ohio river, the B & O R R, and 11 miles south of Wheeling, it is easily accessible by rail and water, and enjoys shipping facilities of which any metropolis might be proud. Aside from its importance as the judicial seat of Marshall county, the location of the state penitentiary and the center of a rich agricultural district, it already enjoys the distinction of being the chief manufacturing city outside of Wheeling in Northwestern Virginia. Among its numerous indus-

BROWN & FLINN, Builders of Cement Block Houses, Business Blocks, Foundations, Retaining Walls, Sidewalks, Etc. Parkersburg, W. Va.

tries may be mentioned 3 planing mills, a tannery, grain cradle works, 3 flour and feed mills, wagon works, 2 brick yards, a flynet, broom and whip factory, a foundry and machine shop, coal shafts, a nursery, an electric light plant, 2 building and loan associations, a cigar factory, and numerous other enterprises. An electric street railway is built from Benwood to Moundsville. The Fostoria Glass Company, of Ohio, one of the largest of its kind in the country, capacity to be doubled this year, employing 600 workmen is located here. It has 10 churches, excellent graded schools, 3 banks and numerous hotels. The press is represented by the daily and weekly Herald, daily and weekly Echo, and 3 religious papers. Moundsville has a fine court house, paved streets, is lighted by electricity, and can compete with the world in cheap fuel, cheap building material, cheap transportation and a first-class quality of water from a complete sytem of mains reaching all parts of the city. Moundsville is the location of the Wheeling District Camp Grounds, having a hall whose seating capacity is 6,000. It also has one of the most beautiful parks in the state, 36 acres in extent. Tel, W U. Exp, U S and Adams. A E Linch postmaster. Free mail delivery employing five carriers.

NEWLYN.

A station on the Huntington division of the C & O Ry, in Fayette county, 7 miles west of Sewell.

NEW MARTINSVILLE.

The judicial seat of Wetzel county since 1846, when the county was formed out of Tyler county. It is on the Ohio river and Baltimore & Ohio R R, and at the terminus of the W Va Short Line, 38 miles south of Wheeling. Was established in 1838, incorporated in 1848 and reincorporated in 1871. The metropolis of Wetzel county has enjoyed a healthy and permanent growth in the past four years and now has a population of over 3,000. Its growth has resulted partially from the general development of the state, but in the main is attributable to oil fields that have been developed within its limits. These fields are known as Elk Fork, Proctor, Piney, Wolf, Penn, Jacksonburg and Pine Grove, with extensions to them under different names. The city has undergone a transformation under these influences and the past two years has seen many fine dwell-

SIPE'S JAPAN OIL.

For all kinds of Painting Staining and Graining is far superior to Linseed Oil and costs less. Will wear longer and have a better finish than work done with Linseed Oil and cheap Dryers.

Sole Manufacturers,
James B. Sipe & Co. Established 1865. Allegheny, Pa.

ings erected within the corporation, while several large and modern business houses have been built. During the coming year building will be quite extensive and many new business houses will be completed. The Short Line Railway, Clarksburg to New Martinsville, is regarded as giving the city great advantages and making it the commercial center of a vast area of West Virginia's coal fields. Several railways, tapping some of the richest veins of coal in the state, are projected to connect with the Short Line Railway. While the city is enjoying a permanent and continuous growth, there is no evidence of a "boom." Real estate, while commanding a fair price, has not reached an exorbitant scale. Much territory for building is available and several additions to the city have been laid out, from which can be selected lots suitable for either business or dwelling houses. A handsome court house has been erected upon the site of the old one at a cost of $100,000. The city is well provided with a good sewerage system, an electric light plant and an electric car line to Sistersville is nearly completed. The city offers exceptional advantages to manufacturers to locate here. Gas is abundant and cheap; good sites for building and the best shipping facilities by rail and water. The buildings occupied by the banks are among the finest in the state. The present banking facilities of the town are contained in the Wetzel County bank, the New Martinsville bank and First National bank. The Episcopal, Methodist Episcopal, Christian, Catholic, Methodist Episcopal South and Presbyterian religious denominations are represented in the city. Five papers are published—the Evening Dispatch (a flourishing daily, edited by the New Martinsville Publishing Company), the Wetzel Republican and Wetzel Democrat and the News, weekly, and the Mountain State Gavel, a monthly organ of the Jr. O. U. A. M. The country lying back of the city affords good agricultural, grazing and fruit raising lands. Local and long distance telephone connections. Express, Adams. Telegraph and telephone facilities. J F McCaskey postmaster.

Williams John W & Sons, live stock.

PARKERSBURG.

This beautiful city, with a population of 23,500, is the county seat of Wood county, situated at the confluence of the Ohio and Little Kanawha rivers, 94 miles below Wheeling, 395 miles from Baltimore, 195 miles from Cincinnati, and 162 miles from Pittsburg. The city is laid out with broad and regular streets, well paved and sewered, and provided with street cars. It is thoroughly lighted with electric lights, and two large tanks on Prospect Hill furnish it with its water supply. Coal and gas, both of which are plentiful, are used as fuel. Its fire department is the finest and best equipped in the state. Ample transportation facilities are afforded by the Ohio River division of the Baltimore & Ohio and the Kanawha Valley railroads, the latter having just completed 30 miles of track and will soon be running trains to Burnsville, Braxton county, a distance of about 100 miles from Parkersburg. The main line of the B & O R R connects from the east with the B & O Southwestern, whose eastern terminal is at this point and extends from Parkersburg to St. Louis. The Parkersburg & Marietta branch of the B & O Southwestern connects with the Zanesville & Ohio, the Cleveland & Marietta, the Ohio Central Lines and the Wabash, while the Ohio River division of the B & O R R extends through the entire state from Wheeling to Kentucky.

801 LIBERTY AVE. Pittsburg, Pa. HALF-TONE
ZINC.

It connects at Ravenswood with the R S & G division, which extends to Spencer, the county seat of Roane county, and at Mill Wood with the Ripley and Mill Creek Valley Road, running from Ripley Landing to Jackson C H. It also connects both north and south with several great systems of railroads. Two magnificent steel bridges span the Little Kanawha river at Parkersburg, and the Ohio river is spanned at this point with one of the longest bridges in the world. The Little Kanawha river has 52 miles of slack water and is navigable at nearly all seasons of the year. It is now assured that the Government will shortly take charge of the river and put in a new series of locks and dams. The Ohio river is also navigable to this city from all points, and by means of 90 miles of slackwater of the Muskingum river, which empties into the Ohio at Marietta. The prosperity of the building industry and its allied interests reflect significantly the city's growth and development. The homes of the working classes are pretty, cozy and comfortable; the residences of the wealthier citizens are spacious and elegant, and the business houses are substantial and attractive. Real estate has never commanded fancy prices, but is steadily increasing in value, enabling the working classes to own their homes and thus materially enhancing the welfare and prosperity of the city. The banking business is transacted by the following banks: The Citizens' National Bank, the Parkersburg National Bank, First National, Central Banking & Security Co, Second National Bank, Farmers & Mechanics National Bank, Wood County Bank, Union Trust & Deposit Co, and Commercial Banking & Trust Co. But few cities of its size have more ample banking facilities, and none have sounder banks than Parkersburg. Notwithstanding the phenomenal industrial advance, that of the educational interest has been equally great. The public schools are unsurpassed by those of any community in the country. There are 15 commodious public school buildings now in use. The high school building (costing $93,000) surpasses in size and architectural beauty many institutions of like character in the larger cities; in addition there is a female seminary, a convent and a business college. Parkersburg's postoffice and custom house building is the finest in the state, and the Camden Theater and the Auditorium would be a credit to any city. The city hall, recently completed, is by far the finest in the state. The city is supplied with gas and water works, lighted by electricity, has telephone exchange, city parks, first-class hotels, and all conveniences of a modern metropolis. Neither are religious organizations neglected, there being 16 churches, representing the leading religious denominations. The State Journal and the Sentinel (daily and weekly), the Parkersburg News (every morning), devoted to the state, are newspapers of which any city might be proud. The most extensive business interests of Parkersburg are those of the lumber industry. The poplar, walnut, oak, cherry and other woods with which West Virginia abounds are manufactured into all classes of furniture, sawed lumber, etc., and shipped to every known land. The other manufacturing interests comprise oil refineries, machine shops, furniture factories, foundries, flour mills, tanneries, steel plants, engine works, wire nail mill, wire works and numerous other industries. Telephones, West Virginia Western Telephone Co. and Central District & Printing Tel Co. Exp, U S and Adams. Tel, W U. Gordon B Gibbens postmaster.

PARSON.

A station on the B & O R R, in Hampshire county, 1 mile north of Romney.

PARSONS.

Population, 1,500. This beautiful little city is located on Cheat river and the West Virginia Central & Pittsburg Railway, 91 miles from Cumberland. It is the county seat of Tucker county and a distributing point for a large section of country. The new Commercial and Windsor Hotels are the principal ones in the city. A handsome new Court House is now completed, costing upwards of $30,000. It is one of the most attractive in design in the state and of unusual architectural beauty, of which the inhabitants of Tucker county feel just pride. A new opera house has just been erected. Lumber and live stock are extensively shipped. The principal industries are Milton Tannery Co. and Parsons Pulp and Paper Co., and a flouring mill. Two live weekly newspapers, The Tucker County Herald and The Parsons Advocate, are published. Fruits of all kinds are produced in abundance in this section, and owing to the vast quantities of coal, mineral and timber that abound thousands of acres of which remain untouched, the most valuable inducements are offered for investment of capital at this place. The West Virginia Central Telegraph Co have offices at this place. Exp, Adams. William F Squires postmaster.

PHILIPPI.

The county seat of Barbour county, with 1,800 population, is located on Tygart's Valley river and the Grafton & Belington division of the B & O R R, 24 miles from Grafton, 124 miles east of Wheeling, 171½ miles north of Belington, at which point the B & O connects with W Va C & P Ry for Cumberland, 148 miles distant. The Wabash R R, which will pass directly through Philippi, is now graded within three miles of the town. It has 5 churches and a good public school, 2 national banks, flour and planing mills, coal mines, a wagon manufactory, a tannery, a good hotel, a marble and granite works, a brick and tile factory with a capacity of 20,000 per day; the Philippi Stogie Co is located here, having one of the most extensive cigar manufactories in the state; 3 weekly newspapers, the Democrat, the Plaindealer and the Republican. A new county court house is being built at an estimated cost of $125,000. The coal fields of this district are in lively operation; in addition to the firms already mining and shipping coal extensively, other large companies are being organized, lands in quantities have been purchased, and the output

lines radiate in every direction, reducing freight rates to a minimum. A trolley line now connects it with Keyser and Cumberland Md. The Piedmont Pulp & Paper Co's large plant is located here, owned by the Luke brothers, employing 350 men. Iron and coal veins of marvelous thickness sandwich the hills, and virgin forests stretch away for miles in every direction. It has two electric light plants, water works, the best opera house outside of large cities, and only one belonging to the town, in the state, good hotels, a Presbyterian and two Methodist (North and South) churches, and across the river, in the sister town of Westernport Md, connected by bridges, a Catholic, Episcopal, United Brethren and Lutheran churches. There are two banks, the First National, the Davis National and Citizens National Bank of Westernport (Westernport Md), and two weekly newspapers, the Herald and the Independent. Tel. W U. Exp. POINT MILLS.

A station on the B & O R R, in Ohio county, 10 miles east of Wheeling.

POINT PLEASANT.

A prosperous city of 3,000 population, located on the Ohio river at its confluence with the Great Kanawha, in Mason county, of which it is the county seat, 172 miles below Wheeling, 78 below Parkersburg, 60 from Charleston and 290 from Cincinnati. The Ohio River branch of the B & O R R and the K & M Ry pass through the city. Direct communication is also had over the Hocking Valley route, the railroad station, Kenauga O, being reached by ferry. Point Pleasant dates its settlement from 1775, and has churches of the leading religious denominations, one of the finest public school buildings in the state, an electric light and water plant, a foundry and machine shop, bottling works, a brick and tile works, one flour mill, one dry dock, an opera house, an ice and cold storage plant, a good hotel, two banks and three newspapers, the Weekly Register, the State Gazette and the Evening News. Two handsome railroad bridges span the rivers, the K & M Ry bridge over the Ohio river and the B & O R R bridge over the Great Kanawha. Lock 11, the last of the series of locks and dams of the Great Kanawha river, is located at this place. The town is sewered and some of the streets are paved with brick. Many new stores and residences are now in course of construction. Exp, Adams and U S. Tel, W U. Telephone connection. Wm Chambers postmaster.

Adams Express Co, B F Gibbs agent.
Allinder John, blacksmith.

ROMNEY.

Population, 1,300. The judicial seat of Hampshire county, is one of the oldest towns in the state, having been settled about the year 1747. It was laid out by Lord Fairfax, and the original plot is still on record. It is the terminus of the South Branch R R division of the B & O R R. The town is situated on a bluff, about 250 feet above the south branch of the Potomac. Here is located the State Institution for the Deaf, Dumb and Blind. It is well supplied with stores, and has 2 newspapers, besides a paper published at the institution, and a small church paper. It has a good public school and a good preparatory school, known as the Potomac Seminary. Excellent grades of hardwood, including vast quantities of white oak and hickory, abound. Tanbark, mine props, ties and lumber constitute the principal shipments. Five churches of the following denominations are sustained: Methodist Episcopal, North and South, Presbyterian, Protestant Episcopal and African Methodist Episcopal. A stage line runs to Moorfield, 27 miles distant, fare $1. Telephone connection with Moorefield, Petersburg and Keyser, Tel. W U. Exp, U S. Mrs Alice Keller postmistress.

Skaggs P M, saw mill.

RONCEVERTE.

Is an important town of 1,800 inhabitants, situated on the C & O Ry and Greenbrier river, in Greenbrier county, 4 miles south of Lewisburg, the county seat. The C & O Ry has just completed a branch road 100 miles in length, which leaves this town and follows the Greenbrier river from Whitcomb 3 miles east, and traverses an undeveloped territory through the rich lumber forests and mineral fields of Greenbrier and Pocahontas counties and connects with the W Va & Pittsburk division of the B & O R R, opening up a new and valuable section of the state to the advantages of railroad facilities with Pittsburg and the trunk lines of the B & O R R and C & O Ry. It is a postal point of considerable importance. A fine white sulphur spring is situated 2 miles from town. Ronceverte is incorporated and has 9 churches, 2 public schools, 2 banks, an opera house, local and long distance telephones, 2 weekly newspapers, flour mill, electric light plant, saw mills, a large cold storage plant, furniture factory and canning house. Exp, Adams. Tel, W U. R S Lovelace postmaster.

ST. MARYS.

Population, 2,500. The county seat and largest town of Pleasants county, located on the Ohio river and B & O R R, 30 miles north of Parkersburg, and 64 south of Wheeling. It was first settled in 1849 and incorporated in 1872, but was reincorporated in 1880. It has five churches, a $20,000 new brick public school, two banks, four hotels, flour mill, tannery, two machine shops and two weekly newspapers, beside the many stores, etc., usually found in an oil town. St Marys is at the present time enjoying a prosperous and extensive business. New businesses are being established, and an extensive mercantile business is carried on. The development of oil in this locality is of no mean proportion, and this, with numerous other advantages, insures a constant growth in the city's welfare. Among the new buildings recently completed is a fine opera house, at a cost of $12,000, and a new court house, estimated to cost not less than $60,000, is contemplated in the near future. Two new bank buildings have been erected, and a new hotel. Oil is king and every kind of business that depends on this commodity is to be found here. Telephone connection to Hebron, Rock Run, Schultz, Finch and Calcutta by local companies, and to the outside

Joy L, blacksmith.
Pickens John, carpenter.
Sheets Lee, hotel.
Wilkinson Martin, fruit grower.
Woofter Rev George (Baptist).

SALEM.

Population, 2,000. A town on the B & O R R, in Harrison county, 14 miles west of Clarksburg, the county seat. It has 3 churches, good schools, 2 banks, a college, good hotels, one planing mill and oil well tool works and oil well supplies. The West Virginia Industrial Home for Girls, recently established with a handsome new building, is charmingly located on its own grounds, and situated about three-quarters of a mile west of town. Owing to the great development of the oil wells through this section Salem has made remarkable advancement during the last few years, and the value of property and business has been greatly advanced. Numerous oil well supply companies have branch houses here, which adds greatly to the business. Since the fire, which occurred on the night of December 14th, 1901, destroying the greater portion of the business section of the town, most of the down-town buildings have been re-erected of brick and stone. The new buildings of the banks are handsome and commodious and cost about $25,000 each. Salem has the only lamp chimney factory in the state, which employes about 100 people and has a monthly payroll of about $5,000. The new postoffice, occupying handsome quarters, and fitted with all the latest mail-handling devices, has more than doubled its receipts since 1897. Exp, U S. Tel, W U. J J Flanigan postmaster.

Baltimore & Ohio R R, O L Rohrbough agent.

SISTERSVILLE.

With 5,000 population, is located on the Ohio river and on the B & O R R, in Tyler county, 9 miles northwest of Middlebourne, the county seat, 47 miles from Parkersburg and the same distance from Wheeling. The town was laid out in 1815, incorporated in 1845 and re-incorporated in 1866. It is one of the greatest oil cities in the country, there being from 2,500 to 3,000 oil wells located in this vicinity. It is lighted by natural gas and electricity, has a fine system of water works and has the best paved streets of any similar sized town in the United States, while its sanitary conditions are perfect. There are three volunteer fire companies, which afford first-class fire protection. The hotel accommodations are unsurpassed and a fine new school building has recently been completed at a cost of about $35,000. It has Baptist, Catholic, Methodist, Episcopal and Presbyterian churches, 4 banks, a flour mill, 1 planing mill, 4 machine shops, oil and gas well tool works, boiler shops, 2 tank manufactories, etc. Sistersville has grown in six years from a settlement of but a few buildings and now has a fine city hall, Masonic temple, new auditorium seating 950 people and many substantial business buildings. The press is represented by the daily and weekly Oil Review and Tyler County Journal. The city's shipping facilities are of the best and the natural resources and advantages offered to manufacturers seeking locations are unrivaled. Electric cars to Middlebourne, New Martinsville and St Marys. Telephone connection, local and long distance. Exp, Adams. Tel, W U. George E Work postmaster.

C. D. HOWARD, Analyst.

This is a new well just drilled, (September, 1903) and differs greatly from the famous Salt Sulphur water of this place. There will be arrangements made for Baths, also a Bottling Department, so persons not being able to visit the Springs, can have the water shipped to them. Repeated tests show that the water is just as good after being bottled as when fresh from the Spring.

Good hotel accommodations—only five minutes walk from the Webster Springs Hotel, also a number of other hotels.

Write for particulars, concerning railroad facilities, hotel accommodations, &c.

$1.25 per Day. **Good Sample Room.** **Livery in Connection**

The Stanard House,

W. B. STANARD, Proprietor.

Fifty Yards from the celebrated Salt Sulphur Springs.

The oldest hotel in Webster Springs. Located on Main Street, convenient to depot.

WESTON.

A growing city of about 4,000, including the suburbs. Near the geographical center of the state, is the county seat of Lewis county. Is on the line of the W Va & Pittsburg division of the B & O R R, known as the Camden system, and the location of the company's repair shops. The West Virginia Hospital for the Insane—constructed at a cost of one and a half million dollars—is located here. There are 7 churches, a graded school, 3 banks, 3 good hotels and local long distance telephone service. Two weekly newspapers are published—The Democrat and The Independent. The manufacturing enterprises include foundry and machine shops, flour mills, saw and planing mills, 2 glass factories, brick manufactory and carriage factory. The streets are well paved and the borough is well lighted by electricity; there is also an abundant supply of natural gas, and oil having been discovered here recently in large quantities close to town, it must insure to Weston a season of prosperity. The entire county is at present much interested in the development of oil. Exp, U S. Tel, W U. R Ad Hall postmaster.

WEST UNION.

Population, 1,000. The county seat of Doddridge county, is located on the Parkersburg branch of the B & O R R, 56 miles south of Wheeling, 55 east of Parkersburg and 49 west of Grafton Junction. Lumber and live stock are the exports, while much activity is manifest in the oil and coal industries both to the north and southeast and within a radius of a few miles splendid developments have been made for a distance of nearly 20 miles to the north and 12 miles to the southeast; the merchants of the town are doing an extensive trade in the oil fields, furnishing supplies of every description. Has 3 banks, 4 churches, 2 schools and a wholesale grocery. The press is represented by the Derrick-Herald and Record. Three daily mail routes, supplying 27 country offices and varying from 15 to 20 miles in distance add materially to West Union as a postal point of considerable importance. A handsome court house of elegant design has just been completed at a cost of $125,000, and other business buildings of architectural beauty and design are under way, including the building of the First National Bank. Bell and Consolidated telephones. Exp, U S. Tel, W U. Alonzo A Bee postmaster.

WHEELING.

Population, 47,000. The largest and most important manufacturing and commercial city in the state, stands on the eastern bank of the Ohio river, and on an island, the mainland and island being connected by two bridges. It was twice temporarily the capital of the state, in 1863 on the formation of the state, then removed to Charleston, and again brought to Wheeling in 1875 until 1885, when Charleston was made the permanent seat of the state government. Wheeling was first settled in 1769 by Ebenezer, Jonathan and Silas Zane, brothers, and was called Fort Fincastle. In 1776, at the outbreak of the Revolution, the name of the settlement was changed to Fort Henry, in honor of the first governor of Virginia. It was twice besieged by the British and Indians, in 1777 and 1782, but successfully resisted both attacks.

Wheeling was incorporated as a village in 1806, and in 1836 received a city charter. Her growth has been steady and her advancement and material prosperity and wealth made strictly on conservative lines. Wheeling is chiefly distinguished for her manufacture of iron and steel, having quite a diversified list of important relative industries, prominent among which is the manufacture of steel pipe, slabs, blooms and billets, steel and iron roofing, steel nails, sheet steel, steel rails, sheet iron, skelp, bar and pig iron, hinges, railroad spikes; in fact, almost every form in which iron and steel is manufactured; also extensive tin plate mills, which are now the most prominent in the country. The tonnage connected with the iron and steel trade amounts annually to over three million tons. The consolidation in 1892 of the entire plants of the Benwood, Belmont, Wheeling Iron and Nail Companies and the Wheeling Steel Works, under one management, has greatly facilitated the development of the different branches of the iron and steel business. This corporation, together with the Riverside Iron Works, form two of the most extensive concerns of their character in the United States. The Riverside plant

is now being enlarged, and when improvements are completed will make it the largest in the country. A new industry just added is the West Virginia Bridge & Construction Company.

Wheeling glassware has long held a most enviable reputation, the products of the various works finding ready sale in all quarters of the civilized world. The pottery industry has but recently been added, and from the very modest beginning three large concerns now do a very flourishing business, their wares being in lively demand, particularly in the west. Their equipment is conceded to be the best in the world. Next to the iron, steel, glass and pottery industries, the most important is the manufacture of chewing and smoking tobacco and cigars. This industry affords employment to the largest number of persons next to the iron and steel establishments. Wheeling beer and ale have a name abroad that make them rivals to the most extensive breweries in the land. The largest breweries are the Reymann, the Schmulbach and Uneeda Brewing companies. They have every modern appointment, and have a combined capacity of half a million barrels annually. The Board of Trade, which has just been established, is constantly adding to Wheeling's industries.

In addition to the interests enumerated above there are a large number of diversified manufacturing industries embracing foundries, mold works, boiler works, axle works, factories for the manufacture of steel ceilings and galvanized iron cornices, window caps, etc, tool works, machine shops, carriage and wagon works, planing mills, box factories, gun works, canning and preserve works, tanneries and other smaller concerns, whose aggregate capital runs considerably into the millions, furnishing employment to thousands of skilled workmen. The commercial interests of Wheeling are very large, there being nearly ninety wholesale houses in the lines of groceries, confectioneries, dry goods, notions, millinery, clothing, hardware, drugs, hats and caps, boots and shoes, wines and liquors, cigars and tobacco, and wool. All of the firms engaged in the above mentioned lines are housed in large and modernly appointed edifices of very attractive architectural design.

The Board of Trade, now in the third year of its existence, has proved to be a great factor in forwarding and conserving the industrial, commercial and economic interests of the city.

The banking and financial establishments of the city stand without peer of similar ones in the largest cities of the country. The wise and conservative management have enabled the fourteen banks now in operation to weather all the storms and panics that have swept over the country; in fact, these periodical depressions and financial calamities have rather strengthened them than anything else. The city enjoys unusual advantages in railroad facilities, commanding outlets over the Baltimore & Ohio and its branches; Ohio River Railroad, Pittsburg, Cincinnati, Chicago & St Louis, and Cleveland & Pittsburg, operated by the Pennsylvania Company; Cleveland, Lorain & Wheeling; Wheeling & Lake Erie; Wheeling & Elm Grove. The Wheeling Bridge & Terminal Company connects the city with Martins Ferry, Ohio, crossing the river at the north end of the city over one of the finest steel and pier bridges that span the Ohio. The company maintains a handsome union depot in the center of the city. The island (which is the Seventh ward of the city), is connected with the city proper by a magnificent suspension bridge of 1,010 feet span of graceful proportions, and a handsome steel bridge, over which the electric cars run, giving the city rapid transit with the towns of Bridgeport, Martins

For Timber, Coal, Oil Lands, Farms and all other kinds of Real Estate See Grogg & Dudley's Advertisement, Page 26.

The Pittsburg Field

is the greatest money-making territory for the advertiser in the United States. With a population of 3,000,000 to draw from, and the purchasing power per capita being greater than anywhere else in this or any other country, money spent for advertising brings the greatest returns for each dollar invested.

The Pittsburg Dispatch

is the greatest paper published in the territory and covers its field thoroughly. Having the prestige of being the only two-cent morning newspaper in its territory, a fearless independent policy, and being one of the best edited papers in the United States, it appeals to and is respected by those of all classes who have money to buy.

Its Circulation

is the largest of its class between New York and Chicago, and enters the homes where it is read by the buyers of the community. The Dispatch prints its papers to sell and not to count, and thus the advertiser gets the advantage of a bona fide circulation that is unequaled for its purchasing power. Discriminating advertisers who have investigated the drawing powers of The Dispatch have found that its circulation has given them three times the returns of any other newspaper in its territory.

Branch Advertising Offices

Eastern—146 Times Bldg., N. Y.: L. D. Tel. 5907 Cortlandt, W. G. Brooke, Manager.
(Private leased telegraph wire connects New York with Pittsburg office.
Advertisements can be sent over wire day or night and secure insertion in next issue.

The Merchandise We Handle

is the kind upon which our reputation for high qualities and low prices is based. We attained this standard of superiority without the sacrifice of reliability—and we retain this point as one of the cardinal features of our business. It will be particularly appreciated at the present time, when new goods are to be seen in every section of the store. The least expensive as well as the most costly article in our store is worthy of entire confidence, and our patrons have never found this confidence to be misplaced.

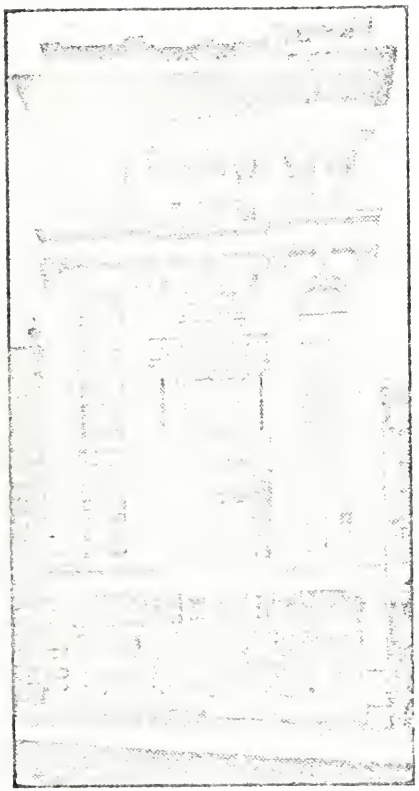
DRY GOODS

Whether it be outfittings for the home or person, women will find their plans easiest and most satisfactory of execution in our immense gatherings of dependable merchandise.



The store is not a department store with a counter-full of this, that and the other, but rather a congress of stores for the showings of

Cloaks and Suits for Women and Girls
Dress Goods
Fancy Goods
Notions Jewelry
Men's Furnishings
Chinaware
Kitchen Utensils
Carpets Furniture

each so large as to form a store in themselves. And everyone of these several stores will prove to be as fair as a railroad ticket seller and as economical as a round-trip ticket.

With one price to everybody and that the lowest. You can safely **Order by Mail** as such orders receive our prompt attention.

PITTSBURG, PA.
ELECTROTYPING. STEREOTYPING.

THE GREATEST LABOR SAVER EVER INVENTED

The Easy and Clean Washing Machine being **Ball Bearing** and **Double Action,** will wash clothes cleaner, quicker and easier than any other washing machine made. It is made of the best material, strong and convenient. You sit down and push the handle from right to left, about half way around, and every time you move the tub one way, the pin wheel on the inside moves the opposite direction. To make it work as nearly automatic as possible, it is provided with an oil tempered coil spring, fastened under the tub, that causes the tub to rebound from either side just like a ball. It works so easy and washes so well that a child can do more washing with it in five minutes than a grown person can with any other machine in ten minutes. Will send it to any responsible person on 30 days trial. A letter will bring it.

Price $10.00 cash or
$12.00 in six months

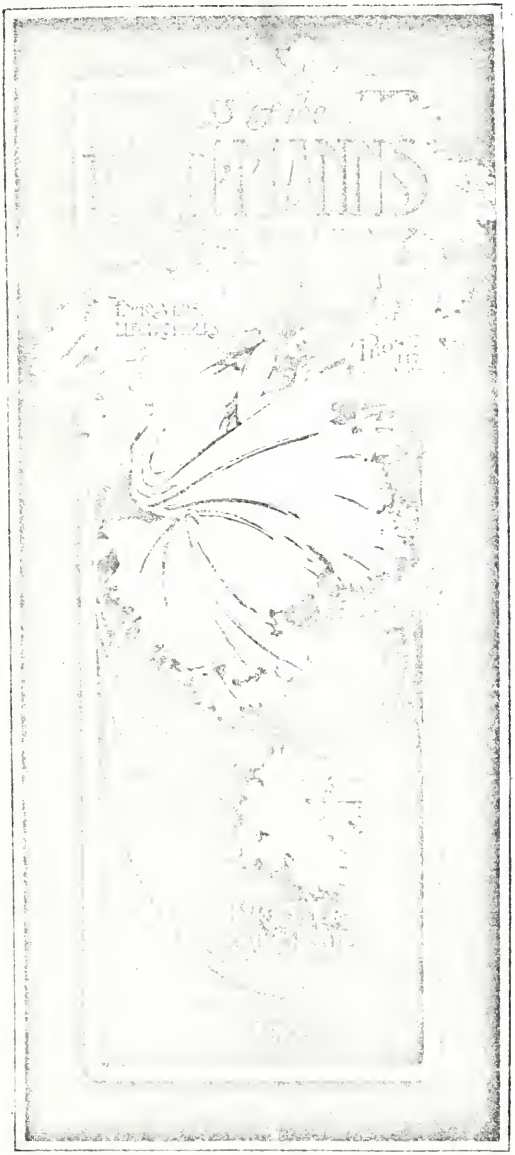
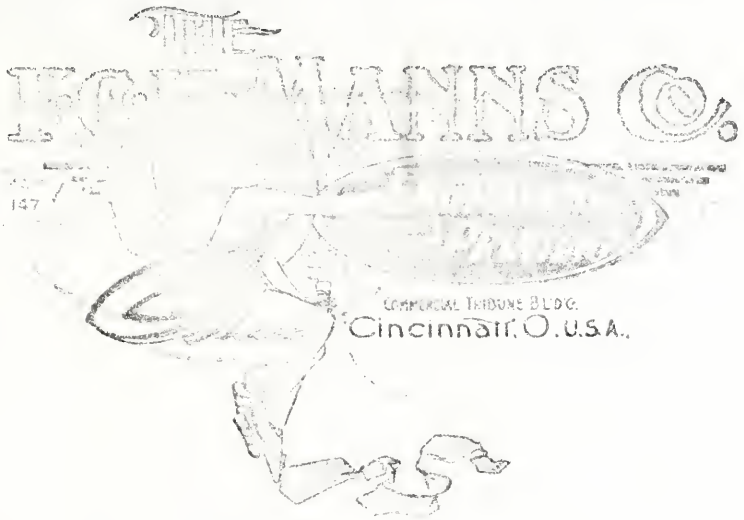
DESIGNERS AND ENGRAVERS



ART PRINTERS AND BINDERS



LL things come to those who hustle, and all GOOD THINGS remain with those who produce high-class work and treat their customers fairly.

We claim leadership in the typographic art, and our engravings (by every process) are known and appreciated all over the country for their superiority in tone and finish—they are unequaled. All kinds of engravings of

CARRIAGES, HARNESS,
AGRICULTURAL IMPLEMENTS,
ETC., ETC.,

are a specialty with us. We are also experts in the line of printing high-grade catalogue work. Don't waste your time on cheap people who ask "department store" prices, but come to us. We will improve the quality of your work, and make you feel that it is WORTH more to you.

We will be pleased to give any information you may desire and to quote you correct prices on the highest class of work.

WE ARE AT YOUR SERVICE.

"ASK OUR PATIENTS"

HINTON, W. VA., December 20, 1903.

MR. J. E. HANGER,
Washington, D. C.

MY DEAR SIR:—

I will write you a few lines for the benefit of those who may be wearing an artificial leg. I put your leg on September 20th. I have never ceased wearing it up to the present time. It has given entire satisfaction in every respect.

I highly recommend your leg to be one of the best legs that exists to-day. I am now running the same run that I was when I got hurt, the local freight. I can get along almost as well as I ever did. I began wearing your leg September 20th and went back to work December 4th, and have been working since. Any further information will be furnished by calling on or writing.

Yours for success,
SAM. T. HAMILTON,
New River Div. No. 140, O. R. C., Hinton, W. Va.

BUSINESS IS BUSINESS

Have YOU an Up-to-date System of Book-keeping?

From a Business Point of View

If you have not, you should.

Part of our business is installing systems.

We also open, close and examine books, make financial statements and periodical audits showing exact condition of your business.

PATENTS

Trade-Marks, Caveats, Copyrights, promptly procured. Expert Service. Interferences and Infringement suits conducted. An experience of 20 years enables us to refer to thousands of actual clients throughout the United States. Our Offices are opposite the Patent Office, and we are able to obtain more prompt results than non-resident attorneys. Send model or sketch for free opinion as to patentability. A 32 Page Book, "How and What to Invent," sent free to inventors.

W. T. FITZ GERALD & CO.

PATENTS

Trade-Marks, Caveats, Copyrights, promptly procured. Expert Service. Interferences and Infringement suits conducted. An experience of 20 years enables us to refer to thousands of actual clients throughout the United States. Our Offices are opposite the Patent Office, and we are able to obtain more prompt results than non-resident attorneys. Send model or sketch for free opinion as to patentability. A 48 Page Book "How, and What to Invent," sent free to inventors.

W. T. FITZ GERALD & CO.

ATTORNEYS-AT-LAW,
Opposite U. S. Patent Office,
WASHINGTON, D. C.

CANADIAN PACIFIC RAILWAY

FROM OCEAN TO OCEAN.

Connecting at Vancouver with the famous Royal Mail Line of Twin Screw Steamers for JAPAN, CHINA, AND THE PHILIPPINES.

And the Canadian-Australian Royal Mail Steamships for AUSTRALIA AND NEW ZEALAND.

Illustrative descriptive matter of these lines and interesting countries mailed free on application.

PATENTS

Trade-Marks, Caveats, Copyrights, promptly procured. Expert Service. Interferences and Infringement suits conducted. An experience of 20 years enables us to refer to thousands of actual clients throughout the United States. Our Offices are opposite the Patent Office, and we are able to obtain more prompt results than non-resident attorneys. Send model or sketch for free opinion as to patentability. A 48 Page Book, "How, and What to Invent," sent free to inventors.

W. T. FITZ GERALD & CO.
ATTORNEYS-AT-LAW,
Opposite U. S. Patent Office,
WASHINGTON, D. C.

PATENTS

Trade-Marks, Caveats, Copyrights, promptly procured. Expert Service. Interferences and Infringement suits conducted. An experience of 20 years enables us to refer to thousands of actual clients throughout the United States. Our offices are opposite the Patent Office, and we are able to obtain more prompt results than remotely dent attorneys. Send model or sketch for free opinion as to patentability. "48 Page Book, "How, and What to Invent," sent free to inventors.

W. T. FITZ GERALD & CO.

Wood-Working Plants will find Huntington the most advantageous point in the state for location, commanding, as it does, the wealth of the forests of Southern West Virginia and Kentucky. Cheapest fuel of any city in the country coal and natural gas; splendid sites, with switching facilities for rail and river shipment, and excellent labor conditions. For particulars as to free sites, etc., address THE HUNTINGTON LAND COMPANY.

PATENTS

Trade-Marks, Caveats, Copyrights, promptly procured. Expert Service. Interferences and Infringement suits conducted. An experience of 20 years enables us to refer to thousands of actual clients throughout the United States. Our Offices are opposite the Patent Office, and we are able to obtain more prompt results than non-resident attorneys. Send model or sketch for free opinion as to patentability. A 72 Page Book "How and What to Invent," sent free to inventors.

PATENTS

Trade-Marks, Caveats, Copyrights, promptly procured. Expert Service. Interferences and Infringement suits conducted. An experience of 20 years enables us to refer to thousands of actual clients throughout the United States. Our Offices are opposite the Patent Office, and we are able to obtain more prompt results than non-resident attorneys. Send Model or sketch for free opinion as to patentability. A 48 Page Book "How, and What to Invent," sent free to inventors.

PATENTS

Trade-Marks, Caveats, Copyrights, promptly procured. Expert Service. Interferences and Infringement suits conducted. An experience of 20 years enables us to refer to thousands of actual clients throughout the United States. Our Offices are opposite the Patent Office, and we are able to obtain more prompt results than non-resident attorneys. Send model or sketch for free opinion as to patentability. A 48 Page Book, "How and What to Invent," sent free to inventors.

W. T. FITZ GERALD & CO.

ATTORNEYS-AT-LAW,
Opposite U. S. Patent Office,
WASHINGTON, D. C.

PATENTS

Trade-Marks, Caveats, Copyrights promptly procured. Expert Service. Interferences and Infringement suits conducted. An experience of 20 years enables us to refer to thousands of actual clients throughout the United States. Our Offices are opposite the Patent Office, and we are able to obtain more prompt results than non-resident attorneys. Send model or sketch for free opinion as to patentability. A 48 Page Book, "How, and What to Invent," sent free to inventors.
